

Lifewise
Eco-Lo^o 

THE TOP 6 UNIQUE ADVANTAGES THAT MAKE THE LIFEWISE ECO-LOO PERFECT FOR YOU:

- You will save a minimum of 56 litres of water per person per day in a household of 4, that's a minimum saving of 224 litres per day!
- You will increase the hygiene in your home, because you have to wash your hands after use to ensure the bowl is cleaned.
- You can save up to 80% on the cost of installation, because the Lifewise Eco-Loo only requires one water connection to be used for both basin and cistern.
- You also save up to 33% on floor space, as the basin and toilet units are combined – making it ideal for small rooms and guest toilets.
- The flush mechanism will also last much longer, as the wear on it is minimized by 75%.
- The system is sealed and has a valve key lock mechanism, which makes it extra safe and unique.
